# Who we are

We are a family run business with a close-knit team of dedicated staff.

We design, install and maintain plants for businesses. Our floristry department creates flower arrangements for workspaces and the hospitality industry.

We like to say we harness the power of nature to create inspirational spaces.

Our Planteria Christmas team are busy conjuring up your 2025 festive experience.

Drawing on years of experience, we know that meticulous planning and scheduling are important to ensure our Christmas Tree Delivery service is top notch in every way.

Join us on our festive journey to ensure your space brings joy this Christmas.

# How it Works

## STEP 1:

Select your festive items from our selection of trees, wreaths and garlands.

## STEP 2:

Choose your sizes and decorations!

## STEP 3:

Process your order.

## STEP 4:

Your decorations will be delivered and installed in your chosen location for you to enjoy throughout Christmas.

## STEP 5:

After Christmas, your decorations will be deinstalled and collected.

## STEP 6:

Get in contact and let us know what you think!

# Sustainability

Beginning at our head office near Stansted Airport, Planteria engages in practical sustainability. We have our Hebridean sheep maintaining areas of grass, harvest our on-site pear trees and manage the site to support wildlife.

## UK GROWN, NO DEFORESTATION

Our aim at Christmas is to supply UK grown Christmas Trees for all our real tree orders. The Christmas Trees supplied from our supplier's farms are classed as Horticultural Crops, grown for the very purpose of being cut down, no deforestation.

All the trees that are harvested will be replaced with at least 2 more trees, ensuring a healthy supply of trees going forward. Each tree on average remains in the ground for 5–10 growing seasons, creating a stable environment for the support of wildlife.

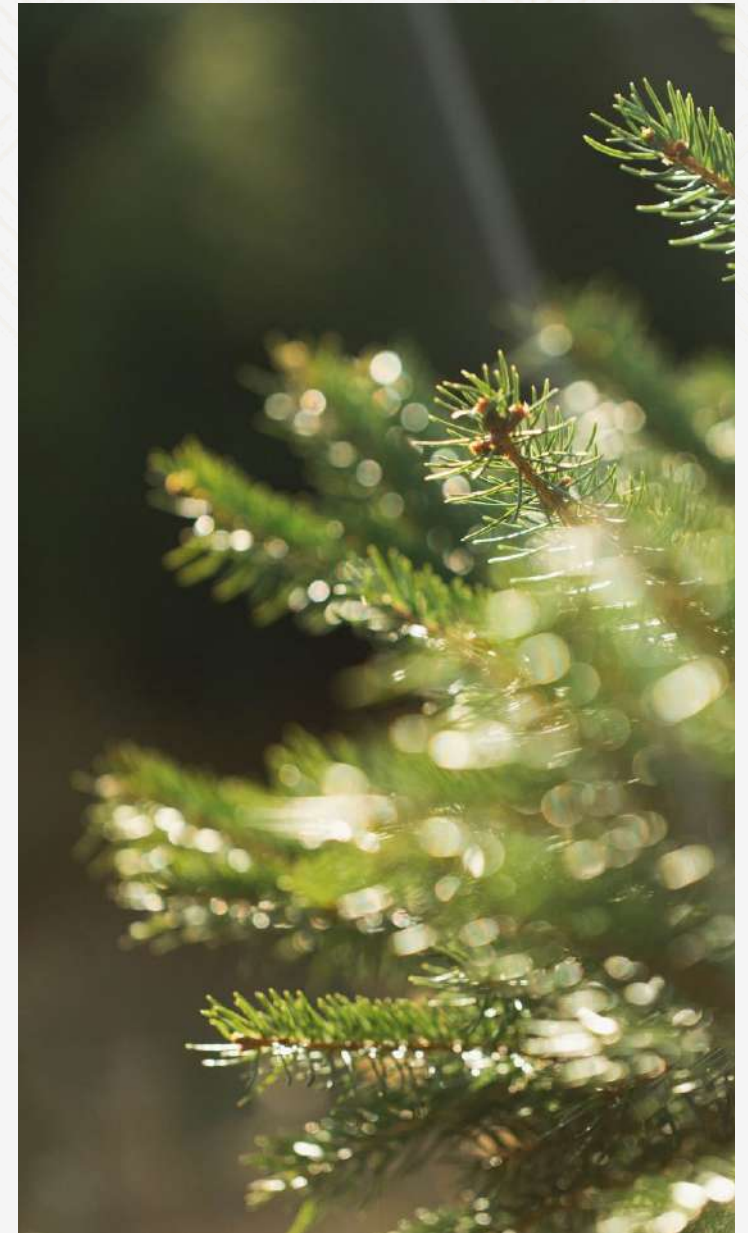

## RE-USING AND REDUCING CARBON FOOTPRINT

All Decorations, Artificial Trees, Wreaths & Garlands are re-used for as many years as possible.

We supply our trees in delivery & collection slots allowing us the flexibility to create the most efficient routes during our delivery and collection periods. This enables us to keep the carbon footprint and miles travelled to a minimum.

Post season, our trees are given to local farmers for natural wildlife cover in their woodlands or chipped to use as mulch back on farmlands, dried for animal bedding or used as a fuel for heating. (One very famous Zoo is a grateful beneficiary of some of the Christmas trees every year)

A Christmas tree that ends up at landfill will release up to 16Kg CO<sub>2</sub>e (for a 7ft specimen), trees that decompose release methane gas which is 25 times more potent as a greenhouse gas than carbon dioxide. ([The Carbon Trust](#)) A Christmas Tree that is burned will have no real net gain as the carbon stored is released straight back into the atmosphere. ([The Carbon Trust](#))

# Final Touches

Why not add some magical final touches to your holiday decorations, transforming your workspace into a festive wonderland.

Consider adorning desks with our little trees or Christmas orchids which can add a charming touch to your space. These simple but effective final touches will leave an impression, creating a joyful ambience that captures the Christmas cheer!

The Little trees come in 3 sizes (Chief, Titch and Glam): with Chief Little being the largest and Titch Little being the smallest of little trees.

Want a Little bit of glam in your office, the brightest of our little range is a rustic frosted tree.
